The minimum price (or offers close to the minimum) is used when purchasing small amounts of gold/jewellery, broken jewellery, no stones, older less cared for, obviously not wanted by current owner, etc, etc.

The maximum (or offers close to the maximum) is used when you have to close the buy, the client has a lot of gold/jewellery to sell, stones, diamonds, well kept, well maintained, obviously cared for and hard to part with, etc, etc.

CALCULATION CHART:

- Separate and organize gold and jewellery by Karat
- Test the gold to ensure the karat and if it is real
- Weigh by karat group and fill in chart below
- If not on a computer, use calculator and formula indicated

FORMULA:

weight in grams X price from Chart = OFFER PRICE
 Example: How much to pay for 37 grams of 14k gold at \$13.50 per gram
 Answer: 37 * \$13.50 = \$499.95
